

Love of Maths - Leaf of Vine

Georg Schierscher is honorary Member of our Society.

During his long career as science-teacher and president of the Mathematical Section of the Liechtenstein Gymnasium he developed a series of didactical materials to promote popular understanding of scholar mathematics.

2012 he initiated a great exhibition at the National Museum in Vaduz.

The exhibition called “Matheliebe” (Love for Maths) traveled to other European Museums.

In connection with “Matheliebe” a stamp was issued 2013.

On the bottom the 17 first Fibonacci's Numbers: 1,2,3,5,6,13,21,34,55,89,144.....

On the left a polar coordinate coordinate circle with a spiral raster gives a structural pattern of a leaf.. (computer generated image)

The vine leaf in autumn colours illustrates this (photographic image)
